

HANDY INFORMATION SHEET

Lucerne Starter

| | |
|------------------------------------|--|
| What is it? | A balanced blend containing minerals, microbes, N P.K.S and trace elements that are known to assist in the establishment of Lucerne stands.. |
| What does it do? | <p>Enhances stronger germination through improved seed – soil contact.</p> <p>Promotes stronger, ore robust root systems allowing better utilisation of applies irrigation and/or rainfall.</p> <p>Increases seedling vigour due to the matched balance of nutrients to crop growth.</p> <p>Reduces seedling stress.</p> |
| Where and when to use it? | In the preparation and pre-plant phase of all new Lucerne stands where achieving maximum germination is a priority. |
| How often do you use it? | Apply pre-plant for all new Lucerne stands.. |
| Application Rates | Rates are determined by current soil tests (within last 6 months), Crop History, Yield Expectation and Farming Practices, etc. Please forward a completed “Soil Profile” form with each soil test. |
| Ordering and Packaging | <p>Available through Earthlife Resellers & Distributors.</p> <p>For you nearest store, call 1800 819 003</p> <p>Product is available in: 40Kg bag, 1Tonne Bulka Bag, Bulk</p> |
| Other Important Information | <p>Spread, using a moving floor spreader (same as for Gypsum).</p> <p>Replaces the need for Lime, Gypsum or Dolomite.</p> <p>Can address soil or plant problems during cropping cycle.</p> <p>Adjusts soil pH towards neutral and maintains level longer.</p> <p>Will not burn plant foliage or root hairs.</p> <p>Experience has shown that applying ELM Plus in combination with Lucerne Starter consistently outperforms conventional programs.</p> |

Lucerne Starter is a soil conditioning product of the highest quality

Typical Analysis of Lucerne Starter

| Element | Nitrogen | Phosphorus | Potassium | Calcium | Magnesium | Silica | Sulphate |
|------------|----------|------------|-----------|---------|-----------|--------|----------|
| Percentage | 1.0 | 4.7 | 4.0 | 16.5 | 2.7 | 26.0 | 3.0 |

Plus 60 other micro nutrients
