

Healthier soil, Healthier plants...

[www.earthlife.com.au](http://www.earthlife.com.au) *it is that simple*

## Planting and Growing Australian Natives

**Garden Mate** breaks up clay and soil compaction allowing water to penetrate while improving drainage, as well as stimulating fresh root and shoot production.

**Native Blend** is ideal to feed and establish natives while encouraging native bees and birds as well as helping to fortify plants against pests, rusts, and diseases.

**Flower Blend** is perfect for keeping the soil conditioned, improving flower numbers and size while improving nectar and pollen quality.

### SUITABLE FOR ALL AUSTRALIAN NATIVES

#### Best Practice

**1-2 handfuls of Garden Mate** in the bottom of the hole when planting,

**3-5 handfuls of Native Blend** around the plant when planting and then every 12-16 weeks.

**3-5 handfuls of Flower Blend** around the plant a couple of times a year.
