Growing Orchids

Garden Delight adds natural nutrition through humates and minerals stimulating root growth, leaf growth and helping to fortify against rots and bacterial infections.

Flower Blend works as a general fertiliser and conditioner while also stimulating flower production and helping to improve size, colour and numbers. **Safe for all orchids.**

Best Practice

1-2 tablespoons of **Garden Delight** alternating with

1-2 tablespoons of **Flower Blend** every 10 to 12 weeks.
