Soil Information Sheet

Store: _____

Name:		Date:	
Address:		Telephone:	
Town:		Facsimile:	
Postcode:	State:	E-mail Address:	

Paddock Name:	Average Annual Rainfall: mm
	Rainfall to date (this year) mm

TEXTURE	COLOUR	CONDITION	DRAINAGE	SLOPE
Sand	Black	Friable	Very Good	Flat <3%
Sandy Loam	Brown	Cloddy	Good	Mod 3-12%
Loam	Red	Crusting	Fair	Steep 12-20%
Clay Loam	Red/Yellow	Hard	Poor	Very Steep >20
Clay light	Grey	Very Hard	Very Poor	Undulating
Clay heavy	Mottled Grey	Stony	Waterlogging	Melon Hole

CULTIVATION	Conventional	Zero Till	Minimum Till	Water Injection
--------------------	--------------	-----------	--------------	-----------------

IRRIGATION	No	Yes	Flood	Spray	Drip	Line Injector
Ind. Spray Output	Lt/Hr	Area of Spray Coverage	sq/m	Length of Irrigation Period	Hrs	
Water Source	Last Water Test	Date:	Bore	Dam	River	

CROPS Previous	Yield	t/ha	3yr Average Yield	t/ha
Broadacre Trash	None	Burnt	Slashed	Standing
Proposed Crop	No. Plants	/ha	Expected Yield	t/ha
Age Yrs	Drip Line Area	Sq/M	Under Tree Mulch	No
Stage	Planting	Flowering	Fruit Set	Fruit Drop
Crop Aims	Increase Protein	Increase Yield	Improve Soil	Reduce Disease

SOIL TREATMENTS (in previous six months)						
Last Fertiliser Application	< 1 month	1-3 months	3-6 months	> 6 months	None	
Major	Nitrogen	Phosphorus	Potassium	Calcium	Magnesium	Manure
Type						
Rate						
Disease Control: (Last applied etc)						

Farming Method	Conventional	Certified Organic	Other
-----------------------	--------------	-------------------	-------

Preferred Fertiliser Brand: Earthlife and _____

Other Comments:

Post or deliver a **representative soil sample** to the postal or site address above, including a soil profile or post direct to: **Crop Tech Laboratories P/L**
Langbeckers Rd, MS 305
Bundaberg QLD 4670.

Note: Please enclose a completed soil profile form with each soil sample.

Obtain a **representative soil sample** by taking 10 to 20 sub-samples of topsoil across the paddock to a depth of 30cm. Mix sub-samples thoroughly to obtain the representative soil sample. If soil type changes, eg. clay to loam, take separate samples for each soil type, or sample the major soil type only. For deep rooted crops, Deep test, Contact Earthlife.
